DETAILED ACTION

The amendment filed 5/3/05 and the remarks presented therewith have been carefully considered. However, they are not deemed to be fully persuasive.

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claim 17 is rejected under 35 U.S.C. 102(b) as being anticipated by Kenworthy (U.S. Patent No. 4,040,534).

Kenworthy shows a hay bale handling vehicle comprising a carriage having a first carriage member (20,34,36) and a second carriage member (22), a base frame having a first beam (30) and a second beam (40), and spike members (42). An attachment pin (38) is received through an opening at one end (32) of first beam (30) and is adapted to be placed through a notch (between ears 36) on the first carriage member (20). While the base frame pivots about pin (38), it is prevented from moving laterally relative thereto.

3. Claim 18 is rejected under 35 U.S.C. 102(b) as being anticipated by Cooley (U.S. Patent No. 4,583,900).

Art Unit: 3652

Cooley shows a bale spike support assembly comprising beam members (16-19), connecting members (15,20,51,52), and a spike (11) wherein grooves are formed between opposing frame members (16 and 18) and (17 and 19) for receiving carriage bars (36) of a standard lift truck (see Fig. 3).

4. Claim 18 is rejected under 35 U.S.C. 102(b) as being anticipated by Langenfeld et al. (U.S. Patent No. 4,930,974).

The patent to Langenfeld et al. shows a bale spike support mechanism comprising first (52) and second (52') beam members having grooves (62,62') that are "adapted to combine with" carriage bars (34,34') respectively.

Allowable Subject Matter

5. Claims 1-4, 6, 7, 10-12, and 14-16 are allowed.
